**Engineering mathematics**
- Matlab (simulations, computations)
- Java (OOP, datastrukturer)

Biomedical Engineering
- Python (Neural networks, computer vision)

Product developer
- Computer vision
- Supervise thesis
- Build medical electrical system

Medtech consultant
- QA/RA in Medtech

High school teacher
- Programming, technology, math
- Python, JavaScript, HTML, CSS, Github
- Blended learning

AI teacher
- Developed AI-programmet from scratch
- Python, data processing, linear algebra, machine learning, deep learning

2012 — Chalmers

2017 — Ortoma

2018 — Alten

2019 — KPU   Jensen

2021 — NTI

IT-Högskolan
